Demo Hospital Information

Educational sample document for testing a Retrieval-Augmented Generation (RAG) project.

Departments

The demo hospital has General Medicine, Cardiology, Dental, Eye, ENT, and Orthopedics departments.

Sample opening hours

For this fictional example only, outpatient registration is listed as 9:00 AM to 4:00 PM, Monday through Friday. Actual hospital hours must be confirmed directly with the hospital.

Appointments

Appointments in this demo are stored locally in a SQLite database. A demo appointment does not contact a real hospital and is not a real booking.

Emergency information

This document is not an emergency service. If someone may be experiencing a medical emergency, contact local emergency services or go to an emergency department.

Contact

This is a fictional training document and does not contain a real hospital name, phone number, address, or medical policy.
